PROFESSIONAL PROFILE

I am a final year level student, willing to learn, unlearn, relearn and grow to achieve goals with an interest in full-stack web development, robotics, machine learning and artificial intelligence.

Also, having a thirst for technological innovation in Africa. I am keen to pursue an internship in the technological industry, with the basic knowledge I have currently in these fields. I believe I would be a useful and prolific addition to your team as an intern with the ability to work with and for a team.
